

We're planning our biggest summer campaign yet for 2024, and that means we have **exciting opportunities to make an impact for clean air, and for our sponsors**. Beginning with Air Quality Awareness Week and continuing throughout the summer, Clean Air Partners will reach tens of thousands of area residents with important messages about the **small steps we all can take to help improve air quality**. Join us for engaging events and innovative efforts to communicate these important messages and empower local residents with tools they can use to make a difference, whether on their commute or in their own backyard.

Clean Air Partners will kick off our summer campaign announcing upcoming efforts, including a partnership with Ace Hardware – A Few Cool Hardware Stores family. As temperatures warm, we will conduct a lawn and garden initiative, including a **yard tool exchange where residents can bring in gas-powered tools and swap them for electric battery-operated tools**. We'll continue communicating our clean air tips with local media and meteorologists through the summer, culminating in our annual Ozone Action Month in August when we'll hit the road to bring eco-driving messages to people throughout the Baltimore-Washington region.

ABOUT THE EVENT ACTIVATIONS

The Clean Air Partners "If You Could See Your Emissions" Exhibit is an eye-catching display that educates the public about ways to reduce their emissions related to lawn and gardening and vehicles. The backdrop is a large campaign-branded wall that displays air quality messages and real tips on how to reduce emissions and improve air quality. Alongside the wall is a head-turning visual — a vehicle or backyard scene encased in a giant clear bubble. A big screen invites participants to engage with the exhibit via a contactless interactive trivia. The challenge is composed of questions on individual behaviors and their impact on emissions and air quality. As players view trivia, puffs of "smoke" vapor, representing emissions, shoot from various objects into the bubble, delivering air quality messaging in a fun, compelling, and memorable way. See the exhibit in action at <http://www.cleanairpartners.net/sponsors!>

Backyard Bubble for Lawn and Garden Initiative

Car Bubble during Ozone Action Month

We've expanded our sponsorship offerings, and this year we're pleased to present you the opportunity to sponsor the activations and messages that best align with your organization, or to partner with us to customize an event aligned with your organization's goals and messages.
